Professional Summary

Frontend developer with over 4 years of experience in web and mobile application development using Angular, ReactJS, React Native, and TypeScript. Focused on user experience, accessibility, agile methodologies (Scrum), and functional design. Experience with REST/GraphQL API integration, payment gateways, data visualization, and clean, scalable interfaces.

Technical Skills

- Languages: HTML5, CSS3, SCSS, JavaScript, TypeScript
- Frameworks & Libraries: Angular 7+, ReactJS, React Native, Spring Boot
- Testing & APIs: REST, GraphQL, Postman, Swagger, Jest, Jasmine, Karma
- Version Control & Deployment: Git, GitHub, Azure DevOps
- Basic Backend: Node.js, NestJS, Java, Python
- Basic Databases: MongoDB, MySQL, Firebase
- Tools: Figma, Visual Studio Code, Android Studio, Xcode, Jira, SoapUI
- Integrations: Redeban, Mercado Pago

Professional Experience

Software Engineer | Ipark – Bogotá, Colombia
Feb 2026 – Jun 2026

- Developed a parking management platform using Angular 16+, implementing features such as:
  - Ticket creation and management for vehicle entry and exit.
  - Ticket payment processing.
  - Fine management and payment processing.
  - Fare configuration and administration.
  - Maintenance of operational system parameters.
- Developed reusable UI components and implemented responsive interfaces using SCSS.
- Integrated REST APIs for data retrieval, processing, and updates.
- Leveraged AI-assisted development tools such as GitHub Copilot and Claude to improve productivity, accelerate feature delivery, and support problem-solving during development.

***Junior Engineer* | McKinsey & Company – Bogotá, Colombia**
Nov 2022 - Mar 2024

- Developed a mobile digital wallet using React Native, NestJS, and GraphQL. Integrated payment gateways and recharge systems.
- Designed user interfaces (UI/UX) and reusable components with Storybook and React Native Paper.
- Built a web app for mining data visualization using ReactJS and Python.
- Implemented internationalization (i18n) with versions in English, Spanish, and Portuguese.
- Unit testing with Jest.
- Agile methodology (Scrum).
- Tools: Git, DevOps, Postman, Android Studio, Xcode.
- Participated in an Angular learning project supporting junior teams with pair programming, code refactoring, feature development, and maintenance.

Technologies: React Native, GraphQL, NestJS, Angular, React Native Paper, Storybook, Jest, i18n, Play Store (test), Scrum, Git, Postman, Android Studio, Xcode

***Semi-senior Developer* I | BITS Americas – Bogotá, Colombia**
Mar 2019 - Nov 2022

- Participated in the development of transactional portals for colsubsidio.com including portal personas (for individuals), portal empresas (for businesses), portal medicamentos (medication services), and Piscilago.
- Created reusable components with Angular, dynamic validations, and modular architecture.
- Developed and integrated Single Sign-On (SSO) authentication.
- Consumed and integrated REST APIs for transactional services.
- Unit tests with Jasmine and automated tests with Cucumber, Selenium and Serenity.
- Integrated payment gateways and security processes.
- Continuous deployment via Azure DevOps.
- Agile methodology (Scrum). Tools: Git, Postman, Swagger, SoapUI.
- UI design in Figma, with accessibility and Material UI implementation.
- Automated scheduled reports using Azure App Logic.

Technologies: Angular, Spring Boot, Azure DevOps, Jasmine, Cucumber, Selenium, Postman, Git, Swagger, SoapUI, Material UI, Figma, Azure App Logic, SSO, REST API

***Developer* | Cable Servicios – Bogotá, Colombia**
Sep 2018 - Nov 2018

- Developed the TESTCA system, an internal platform to control, monitor, and visualize technical equipment performance.
- Backend with PHP (CodeIgniter) and MySQL database.
- Interface built with HTML, Bootstrap, CSS, and JavaScript; used Ajax for backend communication.

Technologies: PHP (CodeIgniter), JavaScript, MySQL, HTML, CSS, Ajax

***Developer* | Multimedia Services – Bogotá, Colombia**
Sep 2017 – Mar 2018

- Interactive content creation for e-learning platforms: word searches, hangman, drag and drop, and multiple-choice activities.
- UI design with HTML, CSS, JavaScript, focused on user experience.
- Publication and integration of educational content in Blackboard.

Technologies: HTML, CSS, JavaScript, Blackboard

***Developer* | Starts Actors Corporation – Bogotá, Colombia**
Mar 2017 – Jul 2017

- Messaging service development using PHP and JavaScript.
- Web interface design with HTML and CSS ensuring usability and clean design.
- Responsive web development with Foundation Zurb framework.

Technologies: PHP, JavaScript, HTML, CSS, Foundation Zurb

***Trainee* | Farmalatam Colombia – Bogotá, Colombia**
Aug 2016 – Oct 2016

- Development of an online drugstore using PrestaShop.
- Systems integration and database structure design with MySQL for inventory and order management.
- Frontend component development with HTML, CSS, JavaScript.
- Backend logic with PHP and version control with GitHub.

Technologies: PrestaShop, PHP, HTML, CSS, JavaScript, MySQL, GitHub

Languages

- Spanish – Native
- English – Intermediate (B1–B2)

Education

- Systems Engineering – Ongoing, UCompensar
- Software Programming Technician – SENA
- Complementary Courses:
    - Web Development with HTML, JavaScript, PHP
    - RESTful Java Spring Boot
    - Website Design and Management Fundamentals
    - English (Berlitz levels 1–6, English Dot Works levels 1–3)
